The San Francisco Bay Area is loaded with fascinating and unique historical sites that represent a broad range of historical events and eras. A resident of the Bay Area or a tourist in town for a few days can see a wide range of historical sites all within a day's drive of San Francisco. This book may also be useful for a teacher or parent who is looking for an educational field trip which ties in with the child's curriculum in a history, literature, or science class. Others may find it interesting to learn more about the Native Americans or pioneer settlers in a local community. So, whether you are just curious about what is inside that old historical house in your neighborhood, want to know how a specific historical event played out in your area, or are just looking for an interesting day trip, this book has something for you. Many people are familiar with the more famous sites in California. It is not uncommon to see tourists make a trip to see all of the California missions or Gold Rush towns, but there are also scores of lesser-known sites within the Bay Area that highlight a particular historical event or offer a comprehensive overview of the history of that town or region. More than just a tour guide, the book is broken into sections with essays that acquaint the reader with the history that is covered by the representative museums or sites. DiGiacomo goes beyond the traditional city, county, state, and national museums and historic sites that feature famous people, historic homes and events. He also covers museums devoted to agriculture, business, Hispanic California, immigration,

military posts, mining, Native Americans, transportation, sports, as well as science and technology. He thoughtfully includes key information on each museum such as its location, web address, hours of operation, cost, and what a visitor can expect to encounter. Over 220 historical sites are listed.

And as she uncovers decades-old intrigues, someone capable of clever lies and remorseless acts decides she must be stopped. Now, with a one-month deadline from the attorney general to either wrap up the case or drop it for good, Alex must work diligently to catch her mother's killer . . . and find a way to stay alive.

From lobbyists such as Jack Abramoff, to corporate executives, like Enron's Kenneth Lay and Jeffrey Skilling, recent scandals dealing with politics and government have focused only on men at the top. But do these high-profile men accurately represent the gendered make up of corporate-government in the United States? In this first in-depth look at the changing face of corporate lobbying, Denise Benoit shows how women who have historically worked mostly in policy areas relating to "women's issues" such as welfare, family, and health have become increasingly influential as corporate lobbyists, specializing in what used to be considered "masculine" policy, such as taxes and defense. Benoit finds that this new crop of female lobbyists mobilize both masculinity and femininity in ways that

create and maintain trusting, open, and strong relations with those in government, and at the same time help corporations to save and earn billions of dollars. While the media focuses on the dubious behaviors of men at the top of business and government, this book shows that female corporate lobbyists are indeed one of the best kept secrets in Washington.

Best Kept Secrets was written by an athlete for athletes and those with an athletic or personal development mindset. At the macro level, this book is for people who have felt or feel marginalized and/or ostracized because they aren't the superstar in their respective space. At the micro and more personal level, Best Kept Secrets is a book by a walk-on, for walk-ons, about walk-ons, and the power that we possess to move from feelings of invisibility to life champions. While the context of Best Kept Secrets highlights the sports journey, it is not only about sports. It is also about life. The life game we play is not for the weak. It is for the battle tested. It is for the courageous. It is for those who understand their why.

Transitioning from best kept secret to life champion is about more than throwing a ball through a hoop, lifting weights, running a ball into an end zone, kicking a ball into or hitting a ball over a net. The transition is about the journey from caterpillar to butterfly. In order to become a life champion, significant effort is required.

Craftsmanship and personal mastery are foundational.
