Divorcing Traditions is an ethnography of Islamic legal expertise and practices in India, a secular state in which Muslims are a significant minority and where Islamic judgments are not legally binding. Katherine Lemons argues that an analysis of divorce in accordance with Islamic strictures is critical to the understanding of Indian secularism. Lemons analyzes four marital dispute adjudication forums run by Muslim jurists or lay Muslims to show that religious law does not muddle the categories of religion and law but generates them. Drawing on ethnographic and archival research conducted in these four institutions—NGO-run women's arbitration centers (mahila panchayats); sharia courts (dar ul-qazas); a Muslim jurist's authoritative legal opinions (fatwas); and the practice of what a Muslim legal expert (mufti) calls "spiritual healing"—Divorcing Traditions shows how secularism is an ongoing project that seeks to establish and maintain an appropriate relationship between religion and politics. A secular state is always secularizing. And yet, as Lemons demonstrates, the state is not the only arbiter of the relationship between religion and law: religious legal forums help to constitute the categories of private and public, religious and secular upon which secularism relies. In the end, because Muslim legal expertise and practice are central to the Indian legal system and because Muslim divorce's contested legal status marks a crisis of the secular distinction between religion and law, Muslim divorce, argues Lemons, is a key site for understanding Indian secularism.

International Journal of Social Impact is the official journal of the RED'SHINE Publication. The principal purpose of the journal is to publish scholarly work in the social sciences defined in the classical sense that is in the social sciences, the humanities, and the natural sciences. The research that is published may take a theoretical or speculative model as well as statistical and mathematical. Contributions are welcome from all fields which have relevant and insightful comments to make about the social sciences. While International Journal of Social Impact (IJSI) is the publication of a regional association, it attracts submissions from a wide range of countries.

Previous efforts at legal development have focused almost exclusively on state legal systems, many of which have shown little improvement over time. Recently, organizations engaged in legal development activities have begun to pay greater attention to the implications of local, informal, indigenous, religious, and village courts or tribunals, which often are more efficacious than state legal institutions, especially in rural communities. Legal pluralism is the term applied to these situations because these institutions exist alongside official state legal systems, usually in a complex or uncertain relationship. Although academics, especially legal anthropologists and sociologists, have discussed legal pluralism for decades, their work has not been consulted in the development context. Similarly, academics have failed to benefit from the insights of development practitioners. This book brings together, in a single volume, contributions from academics and practitioners to explore the implications of legal pluralism for legal development. All of the practitioners have extensive experience in development projects, the academics come from a variety of backgrounds, and most have written extensively on legal pluralism and on development. Records publications acquired from Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, and Sri Lanka, by the U.S. Library of Congress Offices in New Delhi, India, and Karachi, Pakistan.

Domestic Violence, Family Law and School discusses the ways in which family law disputes in cases of domestic violence can impact on children's lives at pre-school and school. In drawing on new research, the book establishes a new framework for understanding how welfare systems tackle domestic violence.

Though a directive principle of the constitution, a uniform civil code of law has never been written or instituted in India. As a result, in matters of personal law -- the segment of law concerning marriage, dowry, divorce, parentage, legitimacy, wills, and inheritance -- individuals of different backgrounds must appeal to their respective religious laws for guidance or rulings. But balancing the claims of religious communities with those of a modern secular state has caused some intractable problems for India as a nation. Religion and Personal Law in Secular India provides a comprehensive look into the issues and challenges that India faces as it tries to put a uniform civil code into practice. Contributors include Granville Austin, Robert D. Baird, Srimati Basu, Kevin Brown, Paul Courtright, Rajeev Dhavan, Marc Galanter, Namita Goswami, Laura Dudley Jenkins, Jayanth Krishnan, Gerald James Larson, John H. Mansfield, Ruma Pal, Kunal M. Parker, William D. Popkin, Lloyd I. Rudolph, Susanne Hoeber Rudolph, Sylvia Vatuk, and Arvind Verma.

With Sithannan's book 'Police Investigation-Powers, Tactics and Techniques', every Police Officer will be able to do a comprehensive investigation even if he/ she just follow the checklists given. The book is written in simple language, which can be easily understood by all Police Officers and will serve as a valuable tool/guide for every officer who has to investigate a crime, participate in the All India Police Duty Meet etc. This is a more exhaustive treatise than his initial one, prepared when he was working in the Police Training College and which is still used by Investigating Officers all over the state of Tamil Nadu. In his present work titled 'Police Investigation: Powers, Tactics and Techniques', the author has meticulously catalogued the tools available to a police officer to become a successful investigator. He has carefully listed the duties of Police Officers at various stages of the investigation and the legal and statutory supports officially available to an investigating officer. The book contains 25 chapters and 4 annexures. In all the chapters, the author describes the problems at hand in elaborate detail, supported by relevant statistical and legal data, drawn from authentic sources. The first chapter includes a discussion on the development of settled society, the origin of law in society and the emergence of military and police in developing societies. In the following chapters, the author has given an exhaustive account of the role and powers of Police in the registration of offences and taking up of the investigation. He has also discussed problems encountered by a Police Officer during the investigation, the trial till the judgement. The book dexterously deals with problems such as the jurisdiction of a Police Officer, the dying declaration of victims, the conducting of inquest, arrest, interrogation and confession of the accused, etc. Apart from Police Officers, Advocates, Law and Judicial Officers would also find this book very useful as a reference book. The reference to judgements pertaining to a host of criminal cases

during the period 1965-2018 merit careful study by the guardians of Law. The checklist provided at the end of each chapter can serve as a ready-reckoner to the Police Officers at various stages of the investigation. A trainee and a veteran equally will find this book a useful aid. To cite an example, under chapter 14, "Arrest", he has cited 37 landmark judgements. By reading these fourteen pages alone one can avert many a pitfall. While writing this book, the academic pursuit of the author is in full bloom, as he has drawn valuable and authenticated data from various enactments, official documents, court judgements and a vast domain of related literature of national and international significance. Moreover, in this scholarly work, the author does not limit himself to expressing his sentiments of fellowship to the investigating Police Officers but also is concerned more about their legitimate and authorized duties, responsibilities, jurisdiction, rights of the accused and the natural processes of the long arm of the law. That the Author's utopian ideal of no innocent person should be punished and no offender should go unpunished can be seen to dominate the whole message of the book. For this purpose, the Author has taken extra pains to give a balanced treatment of the whole problem of crime and its investigation.

Laws relating to water in India have diverse origins, including ancient local customs and the British Common Law. The in-depth chapters in this compendium, written by luminaries from various fields, pertain to issues on water and proceed to a discussion of the legal questions that arise. This volume thus straddles two domains, viz., (i) water-resource policy, management, conservation, conflict-resolution, etc., and (ii) water law. The book also briefly raises and explores the case for a constitutional declaration on water and an overarching national water law. The book is an invaluable resource for policy-makers, planners and administrators concerned with water at the Central, State and local levels; students, academics and practitioners in the domains of water as well as law; and social scientists, NGOs and activists concerned with the various issues discussed in the book. It should be useful as a main or supplementary textbook in universities and research or management institutions where any aspect of water (engineering, ecological, legal, social, economic, management or other) is a subject of study.

This is the first scholarly book devoted to the study of the term dharma with in the broad scope of Indian cultural and religious history. Most generalizations about Indian culture and religion upon close scrutiny turn out to be inaccurate. An exception undoubtedly is the term dharma. This term and the notions underlying it clearly constitute the most central feature of Indian civilization down the centuries, irrespective of linguistic, sectarian, or regional differences. The nineteen papers included in this collection deal with many significant historical manifestations of the term dharma. These studies by some of the leading scholars in the respective fields will both present a more nuanced picture of the semantic history of dharma by putting contours onto the flat landscape we have inherited and spur further studies of this concept so central for understanding the cultural history of the Indian subcontinent.

This series brings together the most significant published journal articles in international law as determined by the editors of each volume in the series. The proliferation of law, specialist journals, the increase in international materials and the use of the internet has meant that it is increasingly difficult for students and legal scholars to have access to all the relevant articles. Many valuable older articles are unable to be obtained readily. In addition each volume contains an informative introduction which provides an overview of the subject matter and justification of why the articles were collected. This series contains collections of articles in a manner that is of use for both teaching and research.

Queer Theory: Law, Culture, Empire uses queer theory to examine the complex interactions of law, culture, and empire. Building on recent work on empire, and taking contextual, socio-legal, comparative, and interdisciplinary approaches, it studies how activists and scholars engaged in queer theory projects can unwittingly advance imperial projects and how queer theory can itself show imperial ambitions. The authors – from five continents – delve into examples drawn from Bollywood cinema to California's 2008 marriage referendum. The chapters view a wide range of texts – from cultural productions to laws and judgments – as regulatory forces requiring scrutiny from outside Western, heterosexual privilege. This innovative collection goes beyond earlier queer legal work, engaging with recent developments, featuring case studies from India, South Africa, the US, Australasia, Eastern Europe, and embracing the frames offered by different disciplinary lenses. Queer Theory: Law, Culture, Empire will be of particular interest to students and researchers in the fields of socio-legal studies, comparative law, law and gender/sexuality, and law and culture.

First published in 1991, this volume aims to take a close look at the laws of 27 countries to locate what others value in the realm of legal deposit and heighten our awareness of its importance for free access to information. It responds to the great concern over the freedom of the press, the end of censorship and absolute government secrecy, and guaranteed public access to information. The term 'legal deposit', known in the UK and several former-British Empire countries as 'copyright deposit', originated in France in 1537 and has spread throughout the world, though the definition of the term remains questionable. Jan T. Jasion examines this through three parts: various aspects of legal deposit, comparing legal deposit worldwide and a detailed examination of the laws of 27 countries to compare the various national interpretations of legal deposit.

This book explores the interaction between science and society and the development of forensic science as well as the historical roots of crime detection in colonial India. Covering a period from the mid-19th to mid-20th century, the author examines how British colonial rulers changed the perception of crime which prevailed in the colonial states and introduced forensic science as a measure of criminal identification in the Indian subcontinent. The book traces the historical background of the development and use of forensic science in civil and criminal investigation during the colonial period, and explores the extent to which forensic science has proven useful in investigation and trials. Connecting the historical beginning of forensic science with its socio historical context and diversity of scientific application for crime detection, this book sheds new light on the history of forensic science in colonial India. Using an interdisciplinary approach incorporating science and technology studies and history of crime detection, the book will be of interest to researchers in the fields of forensic science, criminology, science and technology studies, law, South Asian history and colonial history.

The author examines the interaction between law (i.e., legislation, government rules and court decisions) and mental disorder in India. She does not limit her exposition to merely discussing how the law regulates the medical and social dimensions of mental illness but extends it to show the manner in which society and the medical establishment utilise these legal provisions. More importantly, the book examines how the law impacts on persons with mental illness and proves that the extant law is rights insensitive.

This book highlights the evolution of India's Constitution into a tool for social revolution, tracing the various stages through which the law on the Right to Property and its relationship with the idea of socialism—as laid out in Parts III and IV of the Constitution—have evolved. It underlines that the road to social revolution has been marked by a process where attempts to give effect to the idea of justice—social, economic, and political—as laid down in the Preamble have achieved a measure of success. If the Constitution, including the Preamble, is to be viewed as a contract that the people of India had entered into with the political leadership of the times and the judiciary being the arbitrator to ensure justice, it may be held that the scheme has worked. This book traces this history by placing the judicial and legislative measures in the larger context of the political discourse.

This volume presents a multidisciplinary perspective on dance scholarship and practice as they have evolved in India and its diaspora, outlining how dance histories have been written and re-written, how aesthetic and pedagogical conventions have changed and are changing, and how politico-economic shifts have shaped Indian dance and its negotiation with modernity.. Written by eminent and emergent scholars and practitioners of Indian dance, the articles make dance a foundational socio-cultural and aesthetic phenomena that reflects and impacts upon various cultural intercourses -- from art and architecture to popular culture, and social justice issues. They also highlight the interplay of various frameworks: global, national, and local/indigenous for studying these diverse performance contexts, using dance as a critical lens to analyse current debates on nationalism, transnationalism, gender and sexuality, and postcolonial politics. At the performace level, some articles question the accepted divisions of Indian dance ('classical', 'folk', and 'popular') and critique the dominant values associated with classical dance forms. Finally, the book brings together both experiential and objective dimensions of bodily knowledge through dance.

The real-life answers to Italo Calvino's Invisible Cities, Unruly Places explores the most extraordinary, off-grid, offbeat places on the planet. Alastair Bonnett's tour of the planet's most unlikely micro-nations, moving villages, secret cities, and no man's lands shows us the modern world from surprising new vantage points, bound to inspire urban explorers, off-the-beaten-trail wanderers, and armchair travelers. He connects what we see on maps to what's happening in the world by looking at the places that are hardest to pin down: inaccessible zones, improvised settlements, multiple cities sharing the same space. Consider Sealand, an abandoned gun platform off the English coast that a British citizen claimed as his own sovereign nation, issuing passports and making his wife a princess. Or Baarle, a patchwork city of Dutch and Flemish enclaves where crossing the street can involve traversing national borders. Or Sandy Island, which appeared on maps well into 2012 despite the fact it never existed. Illustrated with original maps and drawings, Unruly Places gives readers a new way of understanding the places we occupy. Law and Anthropology, the latest volume in the Current Legal Issues series, offers an insight into the state of law and anthropology scholarship today. Focussing on the inter-connections between the two disciplines it also includes case studies from around the world.

This book unmaskes the cultural and gender stereotypes that inform the legal regulation of the migrant subject. It critiques postcolonial perspectives on how belonging and non-belonging are determined by the sexual, cultural and familial norms on which law is based and on the colonial encounter

This volume establishes a theoretical framework for exploring the role of host state legal systems (courts and bureaucracies) in mediating relations between foreign investment, civil society and government actors. It then demonstrates the application of that framework in the context of the south Indian city of Bengaluru (formerly Bangalore). Drawing on the 'law-and-community' approach of Roger Cotterrell, the volume identifies three mechanisms through which law might, in theory, ensure that social relations are productive: by expressing any mutual trust which may hold actors together, by ensuring that actors participate fully in social life and by coordinating the differences that hold actors apart. Empirical data reveals that each of these legal mechanisms is at work in Bengaluru. However, their operation is limited and skewed by the extent to which actors use, abuse and/or avoid them. Furthermore, these legal mechanisms are being eroded as a direct result of the World Bank's 'investment climate' discourse, which privileges the interests and values of foreign investors over those of other actors.

This book offers a South Asian perspective on international law, maintaining a suitable distance from the 'Western' approach. The themes discussed reflect the region's particular contribution to the development of international law. Each South Asian country has its own important role to play in promoting regional trade, regulating maritime affairs, ensuring access to water, debating State responsibility, engaging with International Criminal Court, questioning diplomatic and consular immunities, and, most importantly, upholding human rights. These issues are addressed by local contributors from Nepal, Bangladesh and Sri Lanka, who have come together to represent the whole South Asian region on a single academic platform.
