In Ireland, the link between place and myth is strong, and there is no more enlightening way to understand the rich tapestry of Irish mythology, and its relationship to our true history, than by reading the landscape. Earthing the Myths is an engaging and exhaustive county-by-county guide to the vast number of fascinating places in Ireland connected to myth, folklore and early history. Covering the period 800 BC to AD 650, this book spans the Late Bronze Age, the Iron Age and the early Christian period, and explores the ways in which the land evolved, and with it our catalogue of myths and legends. Smyth chronicles sites the length and breadth of the country, where druids, fairies, goddesses, warriors and kings all left their mark, in tales both real and imagined. With over one thousand locations recorded, from Rathlin Island to the Beara Peninsula, Earthing the Myths breathes life into places throughout Ireland that find their origins in our pre-Christian and pre-Gaelic past, and shows that they still possess unique wisdom and vibrant energy.

Whithorn is known in the history of British Christianity as the first known Christian community beyond the Roman province of Britannia, and as the site of the island's earliest named church - Candida Casa.

Formative Britain presents an account of the peoples occupying the island of Britain between 400 and 1100 AD, whose ideas continue to set the political agenda today. Forty years of new archaeological research has laid bare a hive of diverse and disputatious communities of Picts, Scots, Welsh, Cumbrian and Cornish Britons, Northumbrians, Angles and Saxons, who expressed their views of this world and the next in a thousand sites and monuments. This highly illustrated volume is the first book that attempts to describe the experience of all levels of society over the whole island using archaeology alone. The story is drawn from the clothes, faces and biology of men and women, the images that survive in their poetry, the places they lived, the work they did, the ingenious celebrations of their graves and burial grounds, their decorated stone monuments and their diverse messages. This ground-breaking account is aimed at students and archaeological researchers at all levels in the academic and commercial sectors. It will also inform relevant stakeholders and general readers alike of how the islands of Britain developed in the early medieval period. Many of the ideas forged in Britain's formative years underpin those of today as the UK seeks to find a consensus programme for its future. Relates the history of Glendalough as a place of pilgrimage, gives a biography of St. Kevin, and has an account of the many monuments which that contribute to the heritage of the valley. Describes points of interest in each region of the country, recommends restaurants and hotels, and includes information on shopping and entertainment
