Sound HRM practices matter—they are a sine qua non of effective governance in democratic government—equally so at the local, regional, state and national levels of government. Demonstrate and describe differences among HRM practices in public, for-profit and nonprofit organizations, and between the levels of government. Human Resource Management is organized to provide a thorough discussion of the subject matter with extensive references to relevant literature and useful teaching tools. Thus, students will consider the issues, purposes, and techniques of HRM and conceptualize how varied their roles are, or will be, whether a personnel specialist in a centralized system or a supervisor managing in one of the increasingly common decentralized systems. Each chapter includes a thorough review of the principles and practices of HRM (including the why and the how), selected readings, important themes, diverse examples, key terms, study questions, applied exercises, case studies, and examples of forms and processes would-be managers will encounter in their roles.

The content is aligned to outcomes that are geared towards analytical and critical thinking about the theory and practice of HRM in South Africa. The African context is addressed, and ample information about HRM aspects 'elsewhere in Africa' is provided. This edition breaks away even further from the traditional structure of so many standard HRM textbooks. It challenges a broadening of the 'agenda' and scope of HRM work: HRM is not only about managing employees, but also about managing the work and the people who do the work of and in organisations. This may involve alternative ways of getting the work of organisations done superiorly. This book will help you to apply HRM effectively to achieve its ultimate aim, namely to add value to people, to organisations and to society. This comprehensive book is organised around themes such as: Developing an appreciation for the context of HRM in South Africa; Strategising, designing and planning as preparatory HRM work; Sourcing work talent; Facing the countrys people empowerment challenge; Meeting the reward and care challenge; Handling labour and employee relations challenges; Championing change and transformation; Managing HRM-related information, including HRM and sustainability reporting. Based on most recent theoretical developments, the emphasis is on the practical applications. Samples of relevant documents are included, and an accompanying CD contains a wealth of relevant resources as well as a continuing, integrating case study that serves as a basis for these applications, and individual and group activities.
