AN INSTANT NEW YORK TIMES BESTSELLER AN NPR CONCIERGE BEST BOOK OF THE YEAR “In her form-shattering and myth-crushing book....Coe examines myths with mirth, and writes history with humor... [You Never Forget Your First] is an accessible look at a president who always finishes in the first ranks of our leaders.” —Boston Globe Alexis Coe takes a closer look at our first--and finds he is not quite the man we remember Young George Washington was raised by a struggling single mother, demanded military promotions, caused an international incident, and never backed down--even when his dysentery got so bad he had to ride with a cushion on his saddle. But after he married Martha, everything changed. Washington became the kind of man who named his dog Sweetlips and hated to leave home. He took up arms against the British only when there was no other way, though he lost more battles than he won. After an unlikely victory in the Revolutionary War cast him as the nation's hero, he was desperate to retire, but the founders pressured him into the presidency--twice. When he retired years later, no one talked him out of it. He left the highest office heartbroken over the partisan nightmare his backstabbing cabinet had created. Back on his plantation, the man who fought for liberty must confront his greatest hypocrisy--what to do with the men, women, and children he owns--before he succumbs to death. With irresistible style and warm humor, You Never Forget Your First combines rigorous research and lively storytelling that will have readers--including those who thought presidential biographies were just for dads--inhaling every page.

Hannah Beckerman pens a life-affirming novel that tells the story of a family divided and the secret that can possibly unite them—a must for fans of This Is Us. “I loved it (even though it made me cry).”—Jojo Moyes A secret between two sisters. A lifetime of lies unraveling. Can one broken family find their way back to each other? Audrey’s dream as a mother had been for her daughters, Jess and Lily, to be as close as only sisters can be. But now, as adults, they no longer speak to each other, and Audrey’s two teenage granddaughters have never met. Audrey just can’t help feeling like she’s been dealt more than her fair share as she’s watched her family come undone over the years, and she has no idea how to fix her family as she wonders if they will ever be whole again. If only Audrey had known three decades ago that a secret could have the power to split her family in two, and yet, also keep them linked. And when hostilities threaten to spiral out of control, a devastating choice that was made so many years ago is about to be revealed, testing this family once and for all. Once the truth is revealed, will it be enough to put her family back together again or break them apart forever? “Utterly compelling and completely heartbreaking. I couldn’t put it down.” — Ruth Hogan “Totally engrossing, achingly sad and so perceptive about the corrosive legacy of family secrets.”—Kate Eberlen, author of Miss You

This book by CTM is about Life, Men, Love, Dating, Sex and Relationships. You are a romantic junkie who binges on old editions of *Cosmopolitan*. You are addicted to dog-eared tattered paperbacks, with underlined juicy paragraphs, and brawny half-naked men who catch delirious women with bewitching love spells. You get tipsy with your girlfriends, stalk your ex fiancé's new girlfriend on social media, and drunk text men who seem less than desirable in the sober light of day. Your inner-circle is an illegal blonde financial advisor, a sassy tomboy accountant, and a stuck up real estate agent who shows houses in red tailored pants. Not to mention, your drop-dead gorgeous sister. You've watched more "Sex in the City" reruns than you care to admit and you don't see anything wrong with meeting your future husband at a local funeral parlor. You think at any given moment "the one" might just walk into your pretty picture, and you still believe in love at first sight. Sound

In *What Your Doctor Isn't Telling You: The Real Reasons You Don't Feel Good and What YOU Can Do About It*, Dr. Sherer provides readers with verifiable information about current medicine, healthcare and relevant public policy so they can make their own best judgments as to whether a change in their behavior will, if they are inclined, effect a positive change in your life. He strips away the veneer of political correctness when it comes to health and provides the basic truths behind the implications of the daily decisions we make that affect our health. These decisions, mostly based in how we approach food, physical activity, our mental and emotional states, our interactions with others and our approach to accessing healthcare, have profound effects on our physical, mental and emotional states. Rather than being a book on how to eat, how to exercise, how to shop for a health plan and so on, this work strives only to inform. Because with information comes power. And with power, there is the potential for positive change.

INTERNATIONAL BESTSELLER "For anyone who wants to understand capitalism not as economists or politicians have pictured it but as it actually operates, this book will be invaluable."-Observer (UK) If you've wondered how we did not see the economic collapse coming, Ha-Joon Chang knows the answer: We didn't ask what they didn't tell us about capitalism. This is a lighthearted book with a serious purpose: to question the assumptions behind the dogma and sheer hype that the dominant school of neoliberal economists—the apostles of the freemarket—have spun since the Age of Reagan. Chang, the author of the international bestseller *Bad Samaritans*, is one of the world's most respected economists, a voice of sanity—and wit—in the tradition of John Kenneth Galbraith and Joseph Stiglitz. *23 Things They Don't Tell You About Capitalism* equips readers with an understanding of how global capitalism works—and doesn't. In his final chapter, "How to Rebuild the World," Chang offers a vision of how we can shape capitalism to humane ends, instead of becoming slaves of the market.

And don't tell me I can't!" Award-winner Diane Dillon has created a winning character who defies anything to hold her back
