Tenaya has never left Yosemite Valley. He was born in a car by the Merced River, and grew up in a hidden camp with his parents, surviving on fish, acorns, and unfinished food thrown away by the park's millions of tourists. But despite its splendor, Tenaya's Yosemite is a visceral place of opposites, at once beautiful, dangerous, and violent. When he meets Lucy, a young woman from the south side of the park, Tenaya must choose between this new relationship and the Valley, terrorism and legend, the sacred versus the material. In this modern retelling of Samson and Delilah, *Graphic the Valley* explores mythical strength, worldly greed, love, lust, and epic destruction. Set entirely in the majestic Yosemite Valley, Hoffmeister recalls Edward Abbey's vivid sense of place and urgent call for preservation of one of the world's most spectacular sites.

John Hersey (1914-1993) was a correspondent for Time and Life magazines when in 1942 he was sent to cover Guadalcanal, the largest of the Solomon Islands in the Western Pacific. While there, Hersey observed a small battle upon which Into the Valley is based. While the battle itself was not of great significance, Hersey gives insightful details concerning the jungle environment, recounts conversations among the men before, during, and after battle, and describes how the wounded were evacuated as well as other works of daily heroism. A story of the Mohawk Valley in Upstate New York, 1757-1780.

Through the Valley is the memoir of an American prisoner of war in Vietnam. It is the true story of courage, hope, and survival. The author faced combat in some of the biggest battles of the Vietnam War. After being shot down and captured, he mustered the will to survive an ordeal in jungle cages, a forced death march of several hundred miles, and months of anguish in the notorious prisons of Hanoi. His tenacity in the face of unimaginable hardship is not only a captivating story, but serves as an inspiration to us all. This is an account with lessons for those in service who continue to face the demands of combat. It is also a human story that appeals to a broad general readership across the United States and around the world, much as have other POW stories such as *Undeclared* and *The Railway Man*. William Reeder's story is different than most published POW accounts. Unlike the majority of U.S. Air Force, Navy, and Marine pilots who were shot down and captured inside North Vietnam then moved quickly into established prison camps, Reeder was captured inside South Vietnam and held in jungle cages in Cambodia before enduring a grueling forced march of several hundred miles. That march took the lives of seven out of his small group of 27 POWs. He was the last U.S. Army prisoner taken in the

Access Free Into The Valley

war to have survived his captivity. The memoir begins with Reeder's return to Vietnam on his second tour of duty. It carries through his missions as a Cobra attack helicopter pilot during the rapidly deteriorating military situation in early 1972. His writing puts the reader right in the cockpit in the churning cauldron of war. Reeder cuts to the fear and anxiety, the thrill and the horror of combat, friendships made and friends lost. The story continues through his shoot down, capture, and struggle to survive a long and arduous march up the Ho Chi Minh Trail. Reeder shares the torment and pain of his ordeal, but always in the light of the hope that he never lost. More than anything, this is a story of hope and renewal. His memoir reinforces the themes of courage and sacrifice, belief in self, undying faith, strength of family, love of country, loyalty among comrades, and how precious is this thing called freedom that we so often take for granted.

The Great Gatsby (1925) is a novel by F. Scott Fitzgerald. Published at the height of Fitzgerald's career as a leading writer of American fiction, The Great Gatsby was reviewed poorly by contemporary critics, but has since been recognized as a groundbreaking work for its vision of American decadence and decay. Adapted into several influential films and adored by generations of readers and writers, The Great Gatsby is not only Fitzgerald's crowning achievement, but one of the finest novels ever written. Nick Carraway is a young veteran and Yale graduate who moves to New York in search of work. He rents a bungalow on Long Island next door to the extravagant mansion of Jay Gatsby, a magnanimous

millionaire with a mysterious past. There, he reconnects with his distant cousin Daisy and her husband Tom Buchanan, a flagrant philanderer who brings Nick to the city in order to spend time with Myrtle, his impoverished mistress. Soon, he receives an invitation to a party at the Gatsby mansion, where he gets terribly drunk and meets his neighbor, who swears they served together in the Great War. As time goes by, the two begin a tenuous friendship bolstered by stories of the war and a mutual fondness for alcohol. When Nick discovers that Gatsby and Daisy have a complicated history with one another, he starts to question not only the nature of his neighbor's kindness, but his own desire to make it big in New York. The Great Gatsby is a tragic tale of ambition and romance set in the Roaring Twenties, a decade born from war and lost to economic disaster. With a beautifully designed cover and professionally typeset manuscript, this new edition of F. Scott Fitzgerald's *The Great Gatsby* is a classic work of American literature reimaged for modern readers.

The Charge of the Light Brigade has passed into history as one of the most glorious - and costly - exploits in the annals of the horse soldier. The almost simultaneous victory of the Heavy Brigade has, therefore, been overshadowed by this event. This book describes the organization, tactical doctrine and exact strength of the British Cavalry in the Crimea, and the events of 25th October 1854.

How to repair the disconnect between designers and users, producers and consumers, and tech elites and the rest of us: toward a more democratic internet. In this provocative book, Ramesh Srinivasan describes the internet as both an enabler of frictionless efficiency and a dirty tangle of politics, economics, and other inefficient, inharmonious human activities. We may love the immediacy of Google search results, the convenience of buying from Amazon, and the elegance and power of our Apple devices, but it's a one-way, top-down process. We're not asked for our input, or our opinions—only for our data. The internet is brought to us by wealthy technologists in Silicon Valley and China. It's time,

Srinivasan argues, that we think in terms beyond the Valley. Srinivasan focuses on the disconnection he sees between designers and users, producers and consumers, and tech elites and the rest of us. The recent Cambridge Analytica and Russian misinformation scandals exemplify the imbalance of a digital world that puts profits before inclusivity and democracy. In search of a more democratic internet, Srinivasan takes us to the mountains of Oaxaca, East and West Africa, China, Scandinavia, North America, and elsewhere, visiting the “design labs” of rural, low-income, and indigenous people around the world. He talks to a range of high-profile public figures—including Elizabeth Warren, David Axelrod, Eric Holder, Noam Chomsky, Lawrence Lessig, and the founders of Reddit, as well as community organizers, labor leaders, and human rights activists.. To make a better internet, Srinivasan says, we need a new ethic of diversity, openness, and inclusivity, empowering those now excluded from decisions about how technologies are designed, who profits from them, and who are surveilled and exploited by them.

A paratrooper's memoir of survival and close-quarters combat in WWII: "Well worth reading" (Flight Journal). When Dwayne Burns turned eighteen, he decided he wanted to fight alongside America's best. He joined the paratroopers and was assigned to the 508th Regiment of the 82nd Airborne Division. Little did he suspect that a year later he'd be soaring in a flak-riddled C-47 over Normandy, part of the very spearhead of the Allied drive

to seize back Europe. Burns landed behind German lines during the dark early hours of D-Day and gradually found other survivors of his division. The paratroopers fought on every side in a confused running battle through the hedgerows, finally making a stand in a surrounded farmhouse. With one room reserved for their growing piles of corpses, the paratroopers held their ground until finally relieved by infantry advancing from the beaches. After being pulled out of Normandy, the airborne troops were launched into Holland as part of Montgomery's plan to gain a bridgehead across the Rhine. This daytime jump was less confused than the nocturnal one, but there were more Germans than expected and fewer Allied forces in support. It was another maelstrom of point-blank combat in all directions, and though the 82nd achieved its objectives, the campaign as a whole achieved little but casualties. The 82nd had hardly refilled with replacements when the Germans broke through the US front in the Ardennes. The 82nd's paratroopers were put aboard trucks and hastened to stand in the way of the panzer onslaught. Passing through Bastogne, they went farther north to St. Vith, where the US 7th Armored and other divisions were reeling. The 82nd held its own with quickly assembled defense perimeters, allowing other units to escape. After beating off massive attacks by the German SS, the paratroopers were disgusted to hear that they, too, had been ordered to retreat. They didn't feel they needed to, but Monty was determined to "tidy up the battlefield." On January 3, they counterattacked through the freezing hills, sealing off the Bulge and pursuing the Germans

back into the Reich. In this work, Dwayne Burns, assisted by his son Leland (US Army, 1975–79), not only relates the chaos of combat but the intimate thinking of a young soldier thrust into the center of several of history's greatest battles. His memories provide a fascinating insight into the reality of close-quarters combat.

Into the Valley of Death tells the thrilling story of the Charge of the Light Brigade in the words of the men who fought during the most heroic and yet futile engagement of the modern era. By drawing on key evidence the author has not only provided a clear narrative of the events leading up to the 25th October 1854, but has painted a vivid picture of the Charge itself. No punches are pulled and the carnage which ensued is clear for all to read, dispelling the romantic myth of 'death or glory' fostered by the Victorians. This work tells the blood and guts story of a desperate charge by 673 men in the face of what seemed insurmountable odds. It reveals the trauma endured by the rank and file who witnessed all around them men and horses cut to pieces while endeavoring to ride through walls of flying iron and lead, and not knowing if the next second would be their last. Yet in the midst of this horror and devastation, the author takes time to give an overview of the battle itself and puts on the hats of some of the commanders involved, looking at not only what they did, but also at how a terrible disaster could so easily have been turned into the greatest single victory of its time. Could such an apparently mad-cap charge have succeeded? Did sufficient men arrive at the guns to successfully capture them? Were there troops and close support that could have been utilized to drastically change the course of events? Could a simple stalling tactic have allowed these

resources to have been fully exploited? All of these questions are answered. This work truly lifts the lid on the events of over 150 years ago and through the words of the survivors allows the reader to assign the responsibility for the Charge having taken place and for the consequent loss of the Light Brigade.

In the 1970s, while their contemporaries were protesting the computer as a tool of dehumanization and oppression, a motley collection of college dropouts, hippies, and electronics fanatics were engaged in something much more subversive. Obsessed with the idea of getting computer power into their own hands, they launched from their garages a hobbyist movement that grew into an industry, and ultimately a social and technological revolution. What they did was invent the personal computer: not just a new device, but a watershed in the relationship between man and machine. This is their story. *Fire in the Valley* is the definitive history of the personal computer, drawn from interviews with the people who made it happen, written by two veteran computer writers who were there from the start. Working at InfoWorld in the early 1980s, Swaine and Freiburger daily rubbed elbows with people like Steve Jobs and Bill Gates when they were creating the personal computer revolution. A rich story of colorful

individuals, *Fire in the Valley* profiles these unlikely revolutionaries and entrepreneurs, such as Ed Roberts of MITS, Lee Felsenstein at Processor Technology, and Jack Tramiel of Commodore, as well as Jobs and Gates in all the innocence of their formative years. This completely revised and expanded third edition brings the story to its completion, chronicling the end of the personal computer revolution and the beginning of the post-PC era. It covers the departure from the stage of major players with the deaths of Steve Jobs and Douglas Engelbart and the retirements of Bill Gates and Steve Ballmer; the shift away from the PC to the cloud and portable devices; and what the end of the PC era means for issues such as personal freedom and power, and open source vs. proprietary software.

writers."--Janet Maslin, New York Times Book Review From bestselling and award-winning writer Ron Rash ("One of the great American authors at work today."--The New York Times) comes a collection of ten searing stories and the return of the villainess who propelled Serena to national acclaim, in a long-awaited novella. Ron Rash has long been a revered presence in the landscape of American letters. A virtuosic novelist, poet, and story writer, he evokes the beauty and brutality of the land, the relentless tension between past and present, and the unquenchable human desire to be a little bit better than circumstances would seem to allow (to paraphrase Faulkner). In these ten stories, Rash spins a haunting allegory of the times we live in--rampant capitalism, the severing of ties to the natural world in the relentless hunt for profit, the destruction of body and soul with pills meant to mute our pain--and yet within this world he illuminates acts of extraordinary decency and heroism. Two of the stories have already been singled out for accolades: "Baptism" was chosen by Roxane Gay for inclusion in *The Best American Short Stories 2018*, and "Neighbors" was selected by Jonathan Lethem for *The Best American Mystery Stories 2019*. And in revisiting Serena Pemberton, Rash updates his bestselling parable of greed run amok as his deliciously vindictive heroine returns to the North Carolina wilderness she left scarred and desecrated

to make one final effort to kill the child that threatens all she has accomplished. "A gorgeous, brutal writer" (Richard Price) working at the height of his powers, Ron Rash has created another mesmerizing look at the imperfect world around us.

Perhaps it's your children, a family member or a lifelong friend doing you in, dragging you down, pushing you to the brink. If you are an honorary member of the Black Woman's Suffering Society, you have probably been told that it's all your fault. Or that struggling and suffering is your lot in life. Iyanla Vanzant says NO! Life is an Act of Faith and suffering is optional! Those everyday challenges, obstacles, and dilemmas are what Iyanla calls valleys. As bad as they may seem, there is a purpose or, as Iyanla says, "There is so much value in the valley." Valley experiences open your eyes to the things you know but have difficulty facing and accepting. Valleys challenge your fears, strengthen your will, correct your misperceptions, and give you valuable insights into yourself, the world, and the people around you. Those dark, bleak, ugly experiences that make you most uncomfortable can help you to grow. Valley experiences let you know it is time to do a new thing in a new way. If you've ever been disappointed, betrayed, rejected, abandoned, or just plain old scared to let go, then you've been or may still be in a valley. "You're going up the Valley." Black didn't know its name, but he knew it lay deeper and higher than any other place Americans had ventured. You had to travel through a network of interlinked valleys, past all the other remote American outposts, just to get to its mouth.

Everything about the place was myth and rumor, but one fact was clear: There were many valleys in the mountains of Afghanistan, and most were hard places where people died hard deaths. But there was only one Valley. It was the farthest, and the hardest, and the worst. When Black, a deskbound admin officer, is sent up the Valley to investigate a warning shot fired by a near-forgotten platoon, he can only see it as the final bureaucratic insult in a short and unhappy Army career. What he doesn't know is that his investigation puts at risk the centuries-old arrangements that keep this violent land in fragile balance, and will launch a shattering personal odyssey of obsession and discovery as Black reckons with the platoon's dark secrets, accumulated over endless hours fighting and dying in defense of an indefensible piece of land. Catherine flung out her hands as if her flesh could protect the children huddled behind her from musket balls and tomahawks. She raised her head and stared into the war-hardened eyes of a Mohawk warrior. A weapon clutched in each hand, his body smeared with grease paint and blood; he had come to wreak destruction he had come to kill. In 1753, Catherine Wasson and her extended family depart placid New Hampshire to settle in the raucous Mohawk Valley of New York, in search of fertile land and a better life. It doesn't come easy. Catherine must adapt to a multicultural frontier society of wealthy Dutch settlers, hardscrabble Germans, Scots-Irish, African slaves and the original inhabitants; the fiercely independent Iroquois confederation. Within months of their arrival, conflict with their age-old enemy, the French, erupts into a war that threatens their homes and lives. When peace returns, Catherine and her new husband, Samuel Clyde, make their home in the idyllic but remote Cherry Valley, perched on the edge of the Indian frontier. Their peaceful life is short lived. Americans demanding their freedom break from the mother country. As conflict escalates, the Mohawk Valley descends into guerrilla warfare; brother against brother, neighbor against neighbor; everyone must choose a side. On a frigid November morning, Catherine finds herself face to face with Mohawk warrior, Joseph Brant, War Chief of the Iroquois. Once her childhood friend, he is now her greatest enemy; her life is

in his hands. This is the story of my ancestor Catherine Wasson Clyde, wife of Revolutionary War hero Colonel Samuel Clyde. Catherine's singular life is one of bravery, determination and survival.

“The most powerful spiritual healer, fixer, teacher on the planet.” —Oprah Winfrey In this companion volume to her bestselling book *Acts of Faith*, bestselling author and star of “Iyanla: Fix My Life” discusses the “valleys” that cause stress and imbalance for women and explains how women can cleanse their minds and promote a healthy foundation for living in the modern world. A Note from Iyanla Vanzant Beloved friend, When this little book was first published many years ago, it became a beacon of light for many people who found themselves time and time again in one valley or another. Valleys are nothing new for any of us. Some of you may be in a valley right now, or, since you never know what’s around the corner, you may be on the brink of tottering into yet another valley. Or maybe you’ve just survived a valley that you swear you’ll never revisit—but guess what? That’s precisely the valley you’ll probably see again. And again. Being in a valley can be a lonely and bewildering experience. This book was written to help you feel less lonely by reminding you that you really aren’t ever alone since God is always by your side, but more important, you are always by your own side. No matter how dire the situation may seem, no matter how dark and bleak the valley may be, you have all you need within you to survive the valley—any valley. Even though you may not know how you got into the valley in the first place, you do know, deep inside yourself, how to get

through and out and free. You just need a little faith in yourself and a little guidance to find that faith within yourself. When you are at your wit's end, take this little book and let it guide you toward the ever-present but often elusive light at the end of the tunnel. Faith in the Valley is designed to help you find the light when you need it most—when you're in that damn tunnel. When you're most confused and in the dark and clueless as to how you got there (again!) and when you're trying to figure out not just how to get out, but stay out. For good. Faith in the Valley has helped so many through so much that we felt it only fitting to issue this lovely gift edition to acknowledge the special place it holds in many hearts. Please share it with a friend who has served as your beacon in the past, or offer it to yourself as a reminder of the strength and wisdom you possess and can offer to others. Iyanla
